New Security Feature Fights Email Spoofers

In an effort to better protect our members, the Credit Union recently enabled a security feature which fights email spoofers.

With email spoofing, cybercriminals forge emails to make them look like they are coming from a trusted source. Their goal is often to trick victims into giving out sensitive information or installing viruses.

The newly enabled security feature works to block email spoofers pretending to be the Credit Union so they cannot easily prey on our members.

Please Note: If the email address you have on file with the Credit Union is set up to automatically forward emails to another email address, legitimate communications from the Credit Union may not forward. Automatic forwarding may be seen as a spoofing attempt by our system.

For more information on how the Credit Union protects your information, visit chevronfcu.org/security.

Students: FAFSA® Now Available for 2020–2021

The Free Application for Federal Student Aid (FAFSA) is available as of October 1 for students who plan to attend college during the 2020–2021 school year.

When you fill out a FAFSA form, you are applying for federal, state, and school financial aid.

The deadlines vary between states and schools, and some aid is distributed on a first-come first-served basis, making it important to submit the form as soon as you can so you don't miss out on any available assistance.

Find the FAFSA form and more information at fafsa.gov.
